Map to the hospital

Roles and Responsibilities

- ensure you are wearing a mask and clean gloves (supplies are in the puck bag)
- designate a person to call a parent/caregiver of the skater information can be found on TeamSnap (they may not be present)
- secure area and shelter injured person from the environment
- designate who is in charge of the other athletes
- wear gloves if in contact with body fluids
- assess ABC (airway, breathing, circulation and no major bleeding)
- wait by the injured person until EMS arrives
- fill in an accident report

Steps to Follow When an Injury Occurs

- call for emergency help
- provide all information to dispatch (location, nature of injury, description of first aid done, allergies and other medical issues)
- clear any traffic from the access area
- wait by the access area to meet ambulance
- call the emergency contact person listed on the injured person's profile

Steps

1. control the environment
 - stop all athletes
 - protect yourself
 - shelter the athlete
2. initial assessment
 - breathing, pulse, bleeding
 - consciousness
 - back, neck or head injury
 - visible major trauma to a limb
 - cannot move arms/legs
3. second assessment
 - gather facts by talking to athlete
 - stay and talk calmly
 - have the athlete move themselves to safety if possible, do not move athlete yourself
4. assess the injury
 - 1st aid person assesses
 - If 1st aid not sure of severity or no 1st aid person, activate EAP
 - Minor injury, go to step 5
5. Control the return to activity if no:
 - Swelling

- Deformity
- Continued bleeding
- Reduced range of motion
- Pain when using the injured part

Record the injury on an accident report form and send to the Director of Coaching @ coaching@slspeedskating.com
